

Remarks

In view of the amendment above and remarks below, further reconsideration is respectfully requested. The only remaining rejection relates to scope of enablement. The Office Action drafted on pages 2 and 3 of the Office Action language indicative of an enabled approach. The present amendment seeks to implement this. Thus, all subject matter is now presented as a single claim and it is now specified that two antibodies are needed for the homogenate approach, one to spot a phosphorylated fragment and another to confirm relevance to SBP.

Note that an antecedent basis for "fragment" is now provided.

Conclusion

Allowance of further claim 18 is respectfully requested. No additional fees are believed necessary for the consideration of the enclosed response. However, if one is, please then charge Deposit Account 17-0055 for the needed fees.

Respectfully submitted,

Majed M. Hamawy
